TERRELL CALLS A HALT.

Turks Have Run Up Against the United States.

THEY MAY GO A BIT TOO FAR.

An American Missionary Threatened With Arrest, in Which Event Matters Will Probably Soon Be Brought to a Crisis.

CONSTANTINOPLE, Feb. 11.—Turkey's plan to implicate the American missionaries in Armenian affairs is being steadily pursued. An attempt has been made to arrest Mr. Knapp, one of the hardest working missionaries at Bileh, on a charge of sedition and murder, based on an accusation signed under coercion by some Armenians who were in jail. Mr. Knapp appealed to United States Minister Terrell, who learned from Consul Hamilton, at Moush, that the charge was wholly unfounded and was a mere pretext to drive Mr. Knapp from the country. Mr. Terrell insists that, unless the charge is abandoned, Mr. Knapp shall be brought here and tried before him.

FIFTY-FOURTH CONGRESS.

In the House.

WASHINGTON, Feb. 10.—The debate on the bond bill proceeded in the house until noon, when the legislative day of Saturday expired. Mr. Hooper (Rep., N.Y.) spoke in favor of non-concurrence in the free coinage substitute, and Mr. McDermott (Dem., Tenn.), Calhoun (Rep., Kan.), and Shuman (Rep., N.Y.) for concurrence. Mr. Dingler (Rep., Me.) endeavored to reach an arrangement about the bond bill debate. He stated that tomorrow he would give to the District of Columbia committee, Wednesday to the continuation of the bond bill debate, and that Thursday the debate would proceed under the five minute rule until 4 o'clock, when the vote should be taken. There was no objection. Mr. Sayers (Dem., Tex.) then made the formal announcement of the death of his colleague and offered the usual resolutions, which were unanimously adopted. A committee consisting of Messrs. Burton of Texas, Crowley of Texas, Kyle of Mississippi, McDermott of Tennessee, Miles of Maryland, McHenry of Minnesota and Murphy of Illinois, was appointed by the speaker to accompany the body to Texas, after which, at 12:14, the house, as a further mark of respect, adjourned.

In the Senate.

WASHINGTON, Feb. 10.—In the senate Senator Sherman (Penn.) offered a joint resolution, quotes the president's reference to the Cuban war in his last message, declares that there are no means of securing peace to Cuba except by giving it the right of self-government, and offers to amend the friendly relations of the United States to bring about this result. Senator Quay will probably withdraw his motion to reconsider the tariff bill and let the vote decide.

Senator Patterson introduced a joint resolution directing the secretary of the treasury to foreclose the government lien upon the Union Pacific and Kansas Pacific railways and pay the prior lien holders and to take possession of the roads for the government.

WONDER OF THE AGE.

Thomas A. Edison Ready to Photograph the Human Brain.

ORANGE, N. J., Feb. 11.—Thomas A. Edison worked all day in his laboratory in West Orange preparing for his experiment of photographing the human brain with the aid of the newly discovered X-ray.

With the aid of mercury pumps he labored assiduously on Crookes tubes of his own make. To the mouth of each tube a long glass tube was attached, and through this, by means of a connecting tube in the side, the mercury was run and the air in the Crookes tube was gradually exhausted by the mercury.

Surrounded by a score or more of inquisitive reporters and other curious visitors, Mr. Edison sat for hours watching the progress of the work, and he displayed a wonderful amount of patience when, after repeated trials, the desired result was not obtained. Again and again the effects were repeated and Mr. Edison explained to the reporters that he was trying to see whether the rays were longitudinal, etheric vibrations going straight out into space, or local magnetic waves circulating from one electrode to the other in the tube through the air in the immediate locality being purely local in influence. He also was desirous of finding the degree of vacuum in a tube which would give the best effects of X-rays.

In another experiment he caused the rays to pass through a piece of steel one half of an inch thick. He also found that the mysterious rays were capable of penetrating a bit of cardboard, a piece of celluloid and a half-inch strip of steel combined, leaving the plate uniformly black. Had the rays not penetrated the steel the plate would naturally have been black only in the place where the steel was not interposed. He secured similar satisfactory results several times with equal precision.

In regard to his proposed attempt at photographing the human brain, Mr. Edison was asked if there would be any danger of the subject's suffering any physical injury from the rays which would necessarily be forced through his head, as it had been suggested that a spark of electricity from the tube might cause some injury to the nervous system. Mr. Edison replied: "No. The subject will be in no danger whatever, as there is no superheating in the rays in the tubes, and it is the impregnation that works the brain."

He will try to photograph sections of the head out by placing a small film, which is the plate, in celluloid covers in the mouth of the subject with the plate facing the palate. The rays from the fluorescent bulb electrode will then be directed so as to penetrate the skull and strike the plate at the desired angle. After this another plate similarly inclosed in celluloid covers will be placed in the subject's mouth, facing the right or left side of the head and the rays will be placed accordingly.

Thus, in Mr. Edison's opinion, should warrant a successful negative, as the rays would only have to pass through one thickness of the skull, and then, if the attempt was satisfactory, he will try to photograph the entire head with the plate at the back and also with the subject lying on his side to have the rays penetrate from the right or left with the plate on the opposite side.

The importation in large quantities of Egyptian sugar is a new thing made necessary through the apprehension that the Cuban crops, by reason of the war, will be very poor. In addition to this large quantity considerable sugar is being shipped from Hamburg in British steamships and from Honolulu in American clipper ships.

WILL HE APOLOGIZE?

Hawaii May Even Things Up by Dismissing Minister White.

SAN FRANCISCO, Feb. 11.—Advice from Honolulu to a local paper says unless Secretary Olney apologizes for the action of Minister Willis, that official may be given his passports soon. The trouble all grew out of an invitation issued by the Hawaiian foreign office to the diplomatic corps to participate in the national holiday of Jan. 17, the anniversary of the overthrow of the monarchy. Willis refused to take part in the celebration on the ground that President Cleveland did not approve the manner in which the monarchy was overthrown.

BLOODY SHIRT SLEEVE.

It Was Found Near Pearl Bryan's Headless Body at Fort Thomas.

CINCINNATI, Feb. 11.—The grand jury at Newport, Ky., is inquiring into the mystery and indications are expected for the murder in Kentucky.

The head has not yet been found. It is not known where Pearl was murdered, how she was murdered or when she was murdered. It was believed she was murdered Friday night, Jan. 31, but the theory is now held that she was murdered on Thursday night. And now comes the story of May Lulu Hollingsworth of Indianapolis that she was with Pearl in Indianapolis when the latter bought drugs with suicidal intent.

It is believed the trials of the murderers will be in Kentucky, and the trials of accomplices in abortion in Indiana and Ohio, and even then the mystery may not be cleared up. Although Jackson and Walling have each retained more lawyers, they cannot be restrained on legal advice from talking.

When the bloody coat found in a sewer was taken to the jail it precipitated another controversy between the prisoners. The coat fit Jackson and was much too small for Walling, but Jackson claimed they roomed together and Walling wore his roommate's clothes on the night of the murder. Jackson identified the coat as his, but said Walling wore it when he murdered Pearl. Walling admits the blood-stained razor belongs to him, but says Jackson took it for his bloody shirt sleeve.

Among the objects found near the body to bloody shirt sleeve, if Walling wore Jackson's coat his shirt sleeve would have been puffed out to have been easily torn off in the murderous struggle with the unfortunate girl. Three rings were found in a sewer near where Jackson's coat was recovered, but an unknown man got away with them and the search for the rings is as vigorous as for the head.

The Bryan family at Greeneston report that Pearl wore three rings when she left home, and none were found on the body. Carvers and sewers are being examined and work on the Dayton and Ohio is continuing. An examination of the records at the dental college shows that Jackson and Walling were present as usual on Thursday, Jan. 30, but neither one of them was in attendance on Friday, Jan. 31, and the evidence against both of the subjects grows stronger every day. As they see circumstantial evidence accumulating their feeling against each other grows more intense.

NOTICE.

As we have obtained possession of the lease of the old Postoffice Corner, we wish to notify our patrons and the public generally, though not

By Order of the U. S. Government,

that on Feb. 26th we shall remove from our present quarters to the corner lately occupied by the postoffice, which is now being remodeled for the reception of our first-class drug store.

We also wish to express our thanks to the Government for moving, as with our constantly growing business and large stock we are much cramped in our present quarters. Our new and spacious quarters enable us to still further increase our stock, and on opening day we shall have on display a fine line of new toilet goods which will captivate the eye.

Come in and see the best equipped pharmacy in Lima. Reliable compounding of prescriptions. Prices always reasonable.

WM. M. MELVILLE, THE DRUGGIST,

hereafter to be found at the old Postoffice Corner, one door north of our present stand.

THROUGH LINE

From Detroit to Cincinnati By Way of This City.

The Ohio Southern and Lima Northern Will Be When the Two Lines Are Consolidated—A Confirmation of the Plan First Published in the Times-Democrat.

Several months ago the Times-Democrat contained the announcement that it was the intention of the Lima Northern Railroad company to build to a Toledo connection, connect it up with the Ohio Southern, and, after gaining an entrance into Cincinnati, connect up the different lines and have a through line from Detroit to Cincinnati, by way of Toledo and Lima, in competition with the C. H. & D.

The Cincinnati Enquirer this morning contains the following interview with President Megraw, of the Lima Northern and one of the Ohio Southern receivers, which confirms the Times-Democrat statement:

Receiver J. R. Megraw, of the Ohio Southern, was in Cincinnati yesterday on his way from New York to Lima. When questioned concerning the Ohio Southern he gave the information that by June 15 the road would be operating a through line from Cincinnati to Toledo and to Detroit.

"We have been pushing the work on the Lima Northern," said Mr. Megraw, "all during the winter, and have made good progress. We have built 32 miles of track in 33 working days, and we still have 37 miles to complete of the eighty-mile stretch. When this is done the Ohio Southern will parallel the C. H. & D. and furnish a competing line to some of the richest territory in Ohio. It will reach Toledo and Detroit and Adrian, Mich., and will be but a few miles longer than the C. H. & D. from Cincinnati."

Mr. Megraw was asked by what route the Ohio Southern would enter Cincinnati.

"That is not yet ready to be stated but it will not be over the Cincinnati, Lebanon & Northern. There are a number of points at which we could leave our own tracks, and we will make advantageous arrangements. The business of the road has been increasing, and with the completion of the new line and the establishment of through connections this business will be further increased."

The Lima Northern, the Ohio Southern's northern connection, is really but an extension of the latter road from Lima. The road undertook to build from Springfield, its old terminus, to Lima, Toledo and the north, when it was thrown into the hands of a receiver. The line was completed only to Lima. The Lima Northern was then organized by Mr. Megraw and two associates interested in the road, and the work carried on. It has been often said that the interests back of the two roads were Mr. Brice's, but this has been denied, and was declared yesterday by Mr. Megraw to be entirely untrue. Before the Ohio Southern went into the hands of a receiver it undertook to build a connection out of what has always been known as the "Grass-hopper." This branch was built down from Jeffersonville to a point near Lebanon. By the point it could reach the Pan-handle or the C. L. & N., but it is not likely that this entrance will be made. The road could make a deal with the Pan-handle at South Charleston, with the Big Four at Springfield, and with other roads, any one of which would give it a good entrance for its traffic into Cincinnati.

NOTES.

Switch engine 43, of the L. E. & W., was run out of the shops to-day, after being overhauled.

Conductor Ed Andrews, of the Lima Northern, took charge of the north-bound combination train this morning.

The decrease in freight traffic on the L. E. & W. has permitted a reduction in the yard force here. Night Yard Clerk Harry Kellar has been laid off and assistant day yard clerk Chas. Kellar has taken the night trick.
